RE: Town of Corunna, NPDES Permit No. IN0047473  
Revised Discharge Monitoring Reports

This correspondence is submitted per our telephone conversation on April 10, 2008 and the follow-up discussion with David Wagner on that date, concerning the reports for the referenced permit. Accordingly, as requested, the following are enclosed.

1. Discharge Monitoring Reports (DMRs) for February and March 2005 and November 2007.
2. Revised DMRs for the period June through October 2007 and for January and February 2008. These forms have been revised to include influent flow information, as required. (Note that although the December DMR was not requested to be revised it was as it was also missing the influent flow information and it has been enclosed.)

We regret the problems with completing and sending these forms and the Monthly Reports of Operation to IDEM in a timely manner. We believe we have a better understanding of what is to be accomplished and truly appreciate the cooperation extended to the Town of Corunna to correct the deficiencies noted. Please let us know if additional information is needed or if our procedures need to be modified.

Thank you for your attention to this matter and for the courtesy extended to us.

Sincerely, *Philip Arnett*

Philip Arnett, President  
Corunna Town Council
